

**Malla Reddy Engineering College (Autonomous)
named an
NVIDIA GPU Education Center Hyderabad, Telangana—June25, 2015**

Malla Reddy Engineering College today announced that it has been named a GPU Education Center by NVIDIA, the world leader in visual computing. GPU Education Centers are recognized institutions that have integrated GPU computing techniques into their mainstream computer programming curriculum. GPU computing leverages the parallel processing capabilities of GPU accelerators and enabling software to deliver dramatic increases in performance for scientific, analytics, engineering, consumer, and enterprise applications.

Malla Reddy Engineering College was recognized for its commitment to advancing the state of parallel programming education.

As a GPU Education Center, MREC will have access to NVIDIA GPU hardware and NVIDIA parallel programming experts and resources, including educational webinars, an array of teaching materials, and access to the NVIDIA CUDA Cloud Training Program.
