5. HarithaHaram at MREC 06-08-2022

Malla Reddy Engineering College, Mysammaguda, Mandal, Harithaharam program conducted under the auspices of National Service Scheme of the college in the main campus. Principal **Dr. A. Ramaswami Reddy** said that trees play a very important role in controlling environmental pollution. **Dr. A. Ramaswami Reddy** then said that recognizing the importance of trees, the Telangana state government is widely encouraging plantation of saplings across the state through the Harithaharam program. In that spirit, Malla Reddy Engineering College is doing its part to organize the Harithaharam program regularly in the college premises and around the college every year. He said that the environment is constantly being harmed due to the pollution caused by the modern way of life, and trees are the best solution to this problem. Trees are also useful for controlling soil erosion due to floods. He explained that students pursuing engineering education are encouraged to participate widely in such programs with the good intention of informing them of their responsibility towards the society. It has been suggested that every person in the society should grow a plant as their responsibility to increase greenness and help the environment. Principal **Dr. A. Ramaswami Reddy** congratulated the National Service Scheme students who enthusiastically participated in the program. About 150 saplings were planted in this program in which about 50 students participated, National Service Scheme Coordinators of the college **Mr. Nalam Srinivasa Rajneesh** and **Dr. Raja Reddy** informed. Deans, Heads of various departments, teaching and non-teaching staff participated in the program.
