DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

Date: 07.06.2019

Report of Value Added Course on Carrier Recruitment Training (CRT)

A five days CRT training programme was organized by the department of Electrical and Electronics Engineering and the event was coordinated by Dr. D. Raja Reddy, Assoc. Professor, EEE Department from 3rd June to 7th June 2019 and 57 students are attended from III and IV years. The resource person of the training programme was Mr. B. Avinash, Asst. Professor,. The quality of life for the students are enhanced by introspect and learn techniques that imbibe ethics and morals to help the students for active and successful participation in a modern society, producing individuals of high character, probity and honor. With the concept of the global village, engineering graduates as well as other graduates are expected to be presentable, display the right attitude, and to be able to blend with the company's corporate image. After the training programme, the students learned the following,

- Preparedness to become suitable to IT Jobs
- Graduates have to enhance their Employable Skills before leaving Educational Institutions.
- To become successful, Students should become very competent to grab the job opportunities.
- Campus Recruitment Process to filter the candidates and choose "The Right Candidates".
- Training on Practical Exposure – working on a Real Project
- Involvement on a Real Time Project – a very important factor to make you different from other Engineering Graduates.
- Aptitude Skills : Training on Mathematical Skills, Reasoning, Puzzles , Analogies - Practice – oriented Training
- Verbal Ability (English) – Practicing Exercises
- Soft Skills : Attitude, Positive Thinking, Resume Preparation, Presentation Skills, Communication Skills, Group Discussion Skills and Job Interview Skills

The Department has good infrastructure facilities and is equipped with full-fledged laboratories to fulfil the curriculum needs. The Department has well experienced faculty. Around one-third of the faculty members in the department are Doctorate. The department has good number of sanctioned projects, funded by different agencies/industries. The Department is intended to be allotted a Research Centre by JNTU Hyderabad.

Overview of the Programme

The primary responsibility of faculty is not only to inspire students towards a higher vision but also create a strong sense of bonding between the institution and the students to nurture a stress-free holistic environment. To enhance the quality of life for the student members enabling them to introspect and learn techniques that imbibe ethics & morals and help prepare students for active and successful participation in a modern society, producing individuals of high character, probity, and honor.

To professionalize and train the participants in the field of control system engineering and its applications in various fields. It will give conceptual level of knowledge to industry standards. This course further focuses on:

Facilitating practical session on graphical

Objectives of the Programme

- To use the techniques, skills and modern engineering tools necessary for engineering.
- To function on multi-disciplinary teams in the area of power systems, power electronics.
- Graphical platform of LabVIEW and MATLAB
- Ability to communicate effectively on the software tools.

Topics to be covered

- ❖ Modeling in LABVIEW– Design and Implementation
- ❖ Build an Acquire-Analyze-Visualize VI (non-NI hardware)
- ❖ Debugging techniques
- ❖ Manage and display errors

Certificate

After successful completion of the course the certificates shall be issued to the participants.

Outcome of the program

After completing the Course, Student will learn how to do simulation and Design with LABVIEW.

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

Date: 24.07.2019

Report of Value Added Course on Basics of LABVIEW Module Software - I

A five days Value Added Course on Basics of LABVIEW Module Software - I was organized by the department of Electrical and Electronics Engineering and the event was coordinated by Mrs. V. Sumadeepthi, Asst. Professor, EEE Department from 20th July to 24th July 2019 and 52 students are attended from II year. The resource person of the training programme was Mr. T. Balaji, Software Engineer, NI Instruments, Chennai. The participants are trained in the field of LABVIEW and its engineering applications. It gave the conceptual level of knowledge to industry standards. This course is further focused on,

- The use of techniques, skills and modern engineering tools necessary for simulation of electrical engineering applications.
- Modelling in LABVIEW, Design and implementation of electrical applications.
- Debugging Techniques.
- Improved the ability of effective utility of software tools for simulation and design.

CIRCULAR

Date: 20.10.2019

All the students are hereby informed that Value Added Course on NI LABVIEW CLAD COURSE from Nov 04th to Nov 08th 2019 is being organized by the Electrical and Electronics Engineering . The resource person for the course is Mr.B.Anil Kumar Project engineer ..Students are advised to register their names to the programme coordinator Mr.P.Ganesh on or before 27.10.2019 and utilize this opportunity to enhance their skills by attending the programme.

The detailed schedule of the programme will be displayed in the notice board.

About the Institution

Malla Reddy Engineering College (Autonomous) is one of the reputed engineering colleges in Hyderabad, Telangana. MREC (A) is part of Malla Reddy Group of Institutions (MRGI), founded by Honourable Sri. Ch. Malla Reddy, M.P, Govt. of Telangana State. The college is situated in a serene, lush green environment in Maisammaguda, Gundlapochampally Medchal (M), Medchal-Malkajgiri District Telangana- 500100.

The college was established in 2002 and is an autonomous institution approved by UGC and affiliated to JNTUH. The college is re-accredited by NAAC with 'A' Grade (II Cycle) and was conferred autonomous status by JNTUH in 2011 and by UGC in 2014 for a period of 6 years. Our eligible UG and PG programs received NBA accreditation and some of them received reaccreditation too. The college caters to wide ranging aspirations and goals of student communities by offering new courses in UG courses provides PG courses and MBA along with programs in various streams of Engineering & Technology and Management. It boasts of world-class infrastructure and well-equipped laboratories in all departments and is skillfully and smartly guided by **Dr. S. Sudhakara Reddy, Principal, MREC (A)** who have a rich teaching and industrial experience.

About the Department

The Department of Electrical and Electronics Engineering has been established since the inception of the institution in the year 2002. The Department has good infrastructure facilities and is equipped with full-fledged laboratories to fulfill the curriculum needs. The Department has well experienced faculty. Around one-third of the faculty members in the department are Doctorate. The department has good number of sanctioned projects, funded by different agencies/industries. The Department is intended to be allotted a Research Centre by JNTU Hyderabad.

Overview of the Program

The primary responsibility of faculty is not only to inspire students towards a higher vision but also create a strong sense of bonding between the institution and the students to nurture a stress-free holistic environment. To enhance the quality of life for the student members enabling them to introspect and learn techniques that imbibe ethics & morals and help prepare students for active and successful participation in a modern society, producing individuals of high character, probity, and honor.

Proposed course helps for an integral aspect for the design of photovoltaic systems in every country in the world. It allows you to perform the entire process of designing a PV system, from the preliminary assessment of energy generation to the production of final system documentation.

Objectives of the Program

- To use the techniques, skills and modern engineering tools necessary for engineering.
- To function on multi-disciplinary teams in the area of power systems, power electronics.
- Understanding the design of equipment using MATLAB easily.
- Ability to communicate effectively on the software tools.

Topics to be covered

- ❖ LABVIEW Design modules
- ❖ State machine architecture, Dialogue and Interface
- ❖ Electrical components Compressive testing
- ❖ Hybrid Vehicle Design

Certificate

After successful completion of the course the certificates shall be issued to the participants.

Outcome of the program

After completing the Course, Design can be done on system components using LABVIEW software. Able to calculate Event structure, Notifies and Queues calculation and Use of Flat sequence structure.

Report of Value added Course on NI LABVIEW CLAD Course

A five days value added Course on NI LABVIEW CLAD COURSE was organized by the department of Electrical and Electronics Engineering and the event was coordinated by Mr. P. Ganesh, Asst. Professor, EEE Department from 04th Nov. to 08th Nov. 2019 and 55 students are attended from III and IV years. The resource person of the training programme was Mr. B. Anil kumar, Project Engineer, CADD Technologies Pvt. Ltd, Telangana. The participants are trained in the field of LABVIEW and its engineering applications. It gave the conceptual level of knowledge to industry standards. This course is further focused on,

- The use of techniques, skills and modern engineering tools necessary for simulation of electrical engineering applications.
- LABVIEW design modules.
- Real – Time implementation of developed control algorithms in various system applications.
- Electrical components compressive testing.
- Hybrid Vehicle design.

About the Institution

Malla Reddy Engineering College (Autonomous) is one of the reputed engineering colleges in Hyderabad, Telangana. **MREC (A)** is part of Malla Reddy Group of Institutions (MRGI), founded by Honourable Sri. Ch. Malla Reddy, M.P., Govt. of Telangana State. The college is situated in a serene, lush green environment in Maisammaguda, Gundlapochampally, Medchal(M), Medchal-Malkajgiri District Telangana- 500100.

The college was established in 2002 and is an autonomous institution approved by UGC and affiliated to JNTUH. The college is re-accredited by NAAC with 'A' Grade (II Cycle) and was conferred autonomous status by JNTUH in 2011 and by UGC in 2014 for a period of 6 years. Our eligible UG and PG programs received NBA accreditation and some of them received reaccreditation too. The college caters to wide ranging aspirations and goals of student communities by offering new courses in UG courses provides PG courses and MBA along with programs in various streams of Engineering & Technology and Management. It boasts of world-class infrastructure and well-equipped laboratories in all departments and is skillfully and smartly guided by **Dr. S. Sudhakara Reddy, Principal, MREC (A)** who have a rich teaching and industrial experience.

About the Department

The Department of Electrical and Electronics Engineering has been established since the inception of the institution in the year 2002. The Department has good infrastructure facilities and is equipped with full-fledged laboratories to fulfil the curriculum needs. The Department has well experienced faculty. Around one-third of the faculty members in the department are Doctorate. The department has good number of sanctioned projects, funded by different agencies/industries. The Department is intended to be allotted a Research Centre by JNTU Hyderabad.

Overview of the Programme

The primary responsibility of faculty is not only to inspire students towards a higher vision but also create a strong sense of bonding between the institution and the students to nurture a stress-free holistic environment. To enhance the quality of life for the student members enabling them to introspect and learn techniques that imbibe ethics & morals and help prepare students for active and successful participation in a modern society, producing individuals of high character, probity, and honor.

To professionalize and train the participants in the field of control system engineering and its applications in various fields. It will give conceptual level of knowledge to industry standards. This course further focuses on:

Facilitating practical session on graphical platform of C.

Objectives of the Programme

- To use the techniques, skills and modern engineering tools necessary for engineering.
- Real-time implementation of developed control algorithms in for various systems.
- How to write code using pointers structures and arrays.
- Ability to communicate effectively on the software tools.

Topics to be covered

- ❖ Loops While Loop Nested Loop
- ❖ Operators and Expressions
- ❖ Algorithm and flow chart
- ❖ User defined functions

Certificate

After successful completion of the course the certificates shall be issued to the participants.

Outcome of the program

After completing the Course, Student able to design a system and do analysis on their own.

About the Department

The Department of Electrical and Electronics Engineering has been established since the inception of the institution in the year 2002. The Department has good infrastructure facilities and is equipped with full-fledged laboratories to fulfil the curriculum needs. The Department has well experienced faculty. Around one-third of the faculty members in the department are Doctorate. The department has good number of sanctioned projects, funded by different agencies/industries. The Department is intended to be allotted a Research Centre by JNTU Hyderabad.

Overview of the Program

The primary responsibility of faculty is not only to inspire students towards a higher vision but also create a strong sense of bonding between the institution and the students to nurture a stress-free holistic environment. To enhance the quality of life for the student members enabling them to introspect and learn techniques that imbibe ethics & morals and help prepare students for active and successful participation in a modern society, producing individuals of high character, probity, and honor.

To professionalize and train the participants in the field of control system engineering and its applications in various fields. It will give conceptual level of knowledge to industry standards. This further focuses on:

Facilitating practical session on graphical platform of LabVIEW and MATLAB.

Objectives of the Program

- To use the techniques, skills and modern engineering tools necessary for engineering.
- To function on multi-disciplinary teams in the area of power systems, power electronics.
- Understanding the design of equipment using LABVIEW easily.
- Ability to communicate effectively on the software tools.

Topics to be covered

- ❖ Experimentation and Modeling in LABVIEW – Design and Implementation
- ❖ Electrical engineering using LABVIEW Technologies.
- ❖ Loop, While Loop, Case structure.

Certificate

After successful completion of the course the certificates shall be issued to the participants.

Outcome of the program

After completing the Course, Student will learn how to do power system simulation and optimization with LABVIEW.

Date: 27.09.2019

Report of Training Course on LABVIEW Software Module II

A five days Training Course on LABVIEW Software Module II was organized by the department of Electrical and Electronics Engineering and the event was coordinated by Mrs.Y.Sudha, Asst. Professor, EEE Department from 23rd Sept. to 27th Sept. 2019 and 51 students are attended from II year. The resource person of the training programme was Mr.Vijay Chander, Software Engineer, NI Instruments, Chennai. The participants are trained in the field of LABVIEW and its engineering applications. It gave the conceptual level of knowledge to industry standards. This course is further focused on,

- The use of techniques, skills and modern engineering tools necessary for simulation of electrical engineering applications.
- Electrical Engineering applications using LABVIEW technologies.
- Power System simulation and optimization using LABVIEW.
- Loop, Case Structure concepts in LABVIEW for engineering applications.

Around one-third of the faculty members in the department are Doctorate. The department has good number of sanctioned projects, funded by different agencies/industries. The Department is intended to be allotted a Research Centre by JNTU Hyderabad.

Overview of the Programme

The primary responsibility of faculty is not only to inspire students towards a higher vision but also create a strong sense of bonding between the institution and the students to nurture a stress-free holistic environment. To enhance the quality of life for the student members enabling them to introspect and learn techniques that imbibe ethics & morals and help prepare students for active and successful participation in a modern society, producing individuals of high character, probity, and honor.

To professionalize and train the participants in the field of control system engineering and its applications in various fields. It will give conceptual level of knowledge to industry standards. This course further focuses on:

Facilitating practical session on graphical

Objectives of the Programme

- To use the techniques, skills and modern engineering tools necessary for engineering.
- Real-time implementation of developed control algorithms in for various systems.
- Graphical platform of LabVIEW.
- Ability to communicate effectively on the software tools.

Topics to be covered

- ❖ Modeling in LABVIEW– Design and Implementation
- ❖ Build an Acquire-Analyze-Visualize VI (non-NI hardware)
- ❖ Grid connected systems with AC-coupled battery storage. Propagate
- ❖ Design of photovoltaic plants

Certificate

After successful completion of the course the certificates shall be issued to the participants.

Outcome of the program

After completing the Course, Student able to design a system and do analysis on their own.

Date : 05.07.2019

Report of Value Added Course on Training Course on LABVIEW Module IV

A five days Value Added Course on Training Course on LABVIEW Module IV was organized by the department of Electrical and Electronics Engineering and the event was coordinated by Mrs. Y. Sudha, Asst. Professor, EEE Department from 1st July to 5th July 2019 and 35 students are attended from IV year. The resource person of the training programme was Mr. Vijay Chander, Software Engineer, NI Instruments, Chennai. The participants are trained in the field of LABVIEW and its engineering applications. It gave the conceptual level of knowledge to industry standards. This course is further focused on,

- The use of techniques, skills and modern engineering tools necessary for simulation of electrical engineering applications.
- Real – Time implementation of developed control algorithms in various system applications.
- Graphical platform of LABVIEW.
- Improved the ability of effective utility of software tools.
